AAE Systems, Inc. Awarded a Contract to Provide Mesh Network Connectivity

Sunnyvale, CA (26 May 2006) – AAE Systems, Inc. (AAE) finalized a contract to supply its MF-TDMA DAMA Eclipse system. The Eclipse system will be deployed in a Mesh topology supporting voice, data, Internet, and database connectivity for a corporate network. Eclipse will efficiently connect multiple sites in Russia, Georgia, Bulgaria, and Turkey.

The high-bandwidth Eclipse MF-TDMA DAMA network will realize multiple levels of Quality of Service over Ku-band. Eclipse uniquely employs auto-power control and rain fade capabilities to enable seamless connectivity between disparate sites. Multi-node redundancy and the sophisticated Network Management System enhance network efficiency and security, exceeding customer system expectations.

About AAE Systems, Inc.

AAE Systems, Inc. has remained a global leader in the communications solutions industry since 1984. AAE has always focused on addressing the needs of customers by providing cutting edge satellite-based communications networks and services.
