## AAE Systems, Inc. Awarded a Contract to Provide Full-Mesh Network Connectivity

**Sunnyvale, CA (4 August 2006)** – AAE Systems, Inc. (AAE) finalized a contract to supply its MF-TDMA DAMA Eclipse system to an oil company in Oman. The Eclipse system will be deployed in a full-Mesh topology supporting voice and data connectivity for a corporate network. Eclipse will efficiently connect multiple sites throughout Oman.

The high-bandwidth, MF-TDMA DAMA Eclipse is the most efficient and cost-effective satellite network on the market today. Eclipse will realize multiple levels of Quality of Service over Ku-band and uniquely employ auto-power control and rain fade capabilities to enable seamless connectivity between disparate sites.

### **About AAE Systems, Inc.**

AAE Systems, Inc. has remained a global leader in the communications solutions industry since 1984. AAE has always focused on addressing the needs of customers by providing cutting edge satellite-based communications networks and services.
