## AAE Systems, Inc. Opens Office in India

New Office To Provide Sales, Marketing, Systems Engineering, and Customer Service Support for South Asia.

**Sunnyvale, CA (28 February 2008)** – AAE Systems, Inc. today announced that it has expanded its operations with the opening of an office in India to provide regional sales, engineering, and customer support.

AAE is confident that the geographic proximity of the new office to South Asia customers, seeking local engineering design and support services, will create even further business opportunities.

The majority of the systems engineering design personnel will remain at AAE's headquarters in the United States. Corporate functions, research and development, and manufacturing of AAE's Eclipse Digital Satellite Router product family, will also remain at AAE's headquarters.

### **About AAE Systems, Inc.**

AAE Systems, Inc. has remained a global leader in the communication solutions industry since 1984. Committed to addressing the needs of its customers, AAE provides creative, comprehensive, and technologically advanced satellite-based communication networks and services.
